

»Kleiner Gefallen für einen Künstler«

foreword

Art as art can
Colors!
Animals!
Tropical landscapes!
Terra-mix!

Pictures speaking out of themselves, almost no words
necessary to describe the beauty of sibs' art. Unusual
animals in unusual beautiful places.

Picture yourself in a boat on a river
With tangerine trees and marmalade skies „(Lucy in the sky
with diamonds, the Beatles)“. Probably these lyrics describe
the emotions created by these art works allowing you to
indulge into these worlds, giving you the impression to be
there, if you are not already there.
Art as it can be, should be:
Colorful, hard....., peaceful.

Museum quality Giclee-Prints are available of some of the pieces. Finest quality pigment print. The 100% cotton paper is made in Germany by Hahnemühle and has a beautiful texture and feel to it. The wide border leaves enough white space for easy framing. Prints on fine art paper are particularly high-quality. Prices for prints start at 200 EUR. Prices for Originals on request. Starting at 4000 EUR.

The flamingo is called ,Bob' and was created on Curacao in December 2020. It has also found its home there, stylishly overlooking the turquoise blue ocean

me

As an amateur biologist and self taught fine artist I am particularly inspired by patterns in the natural world. Fish scales, bird feathers, reptile skin and waves all play a part in my creations. My art is anatomically correct; my color choice, fanciful. I often use my art to make a statement about our time; the covid pandemic, the war in Ukraine, fossil fuels, solid waste.

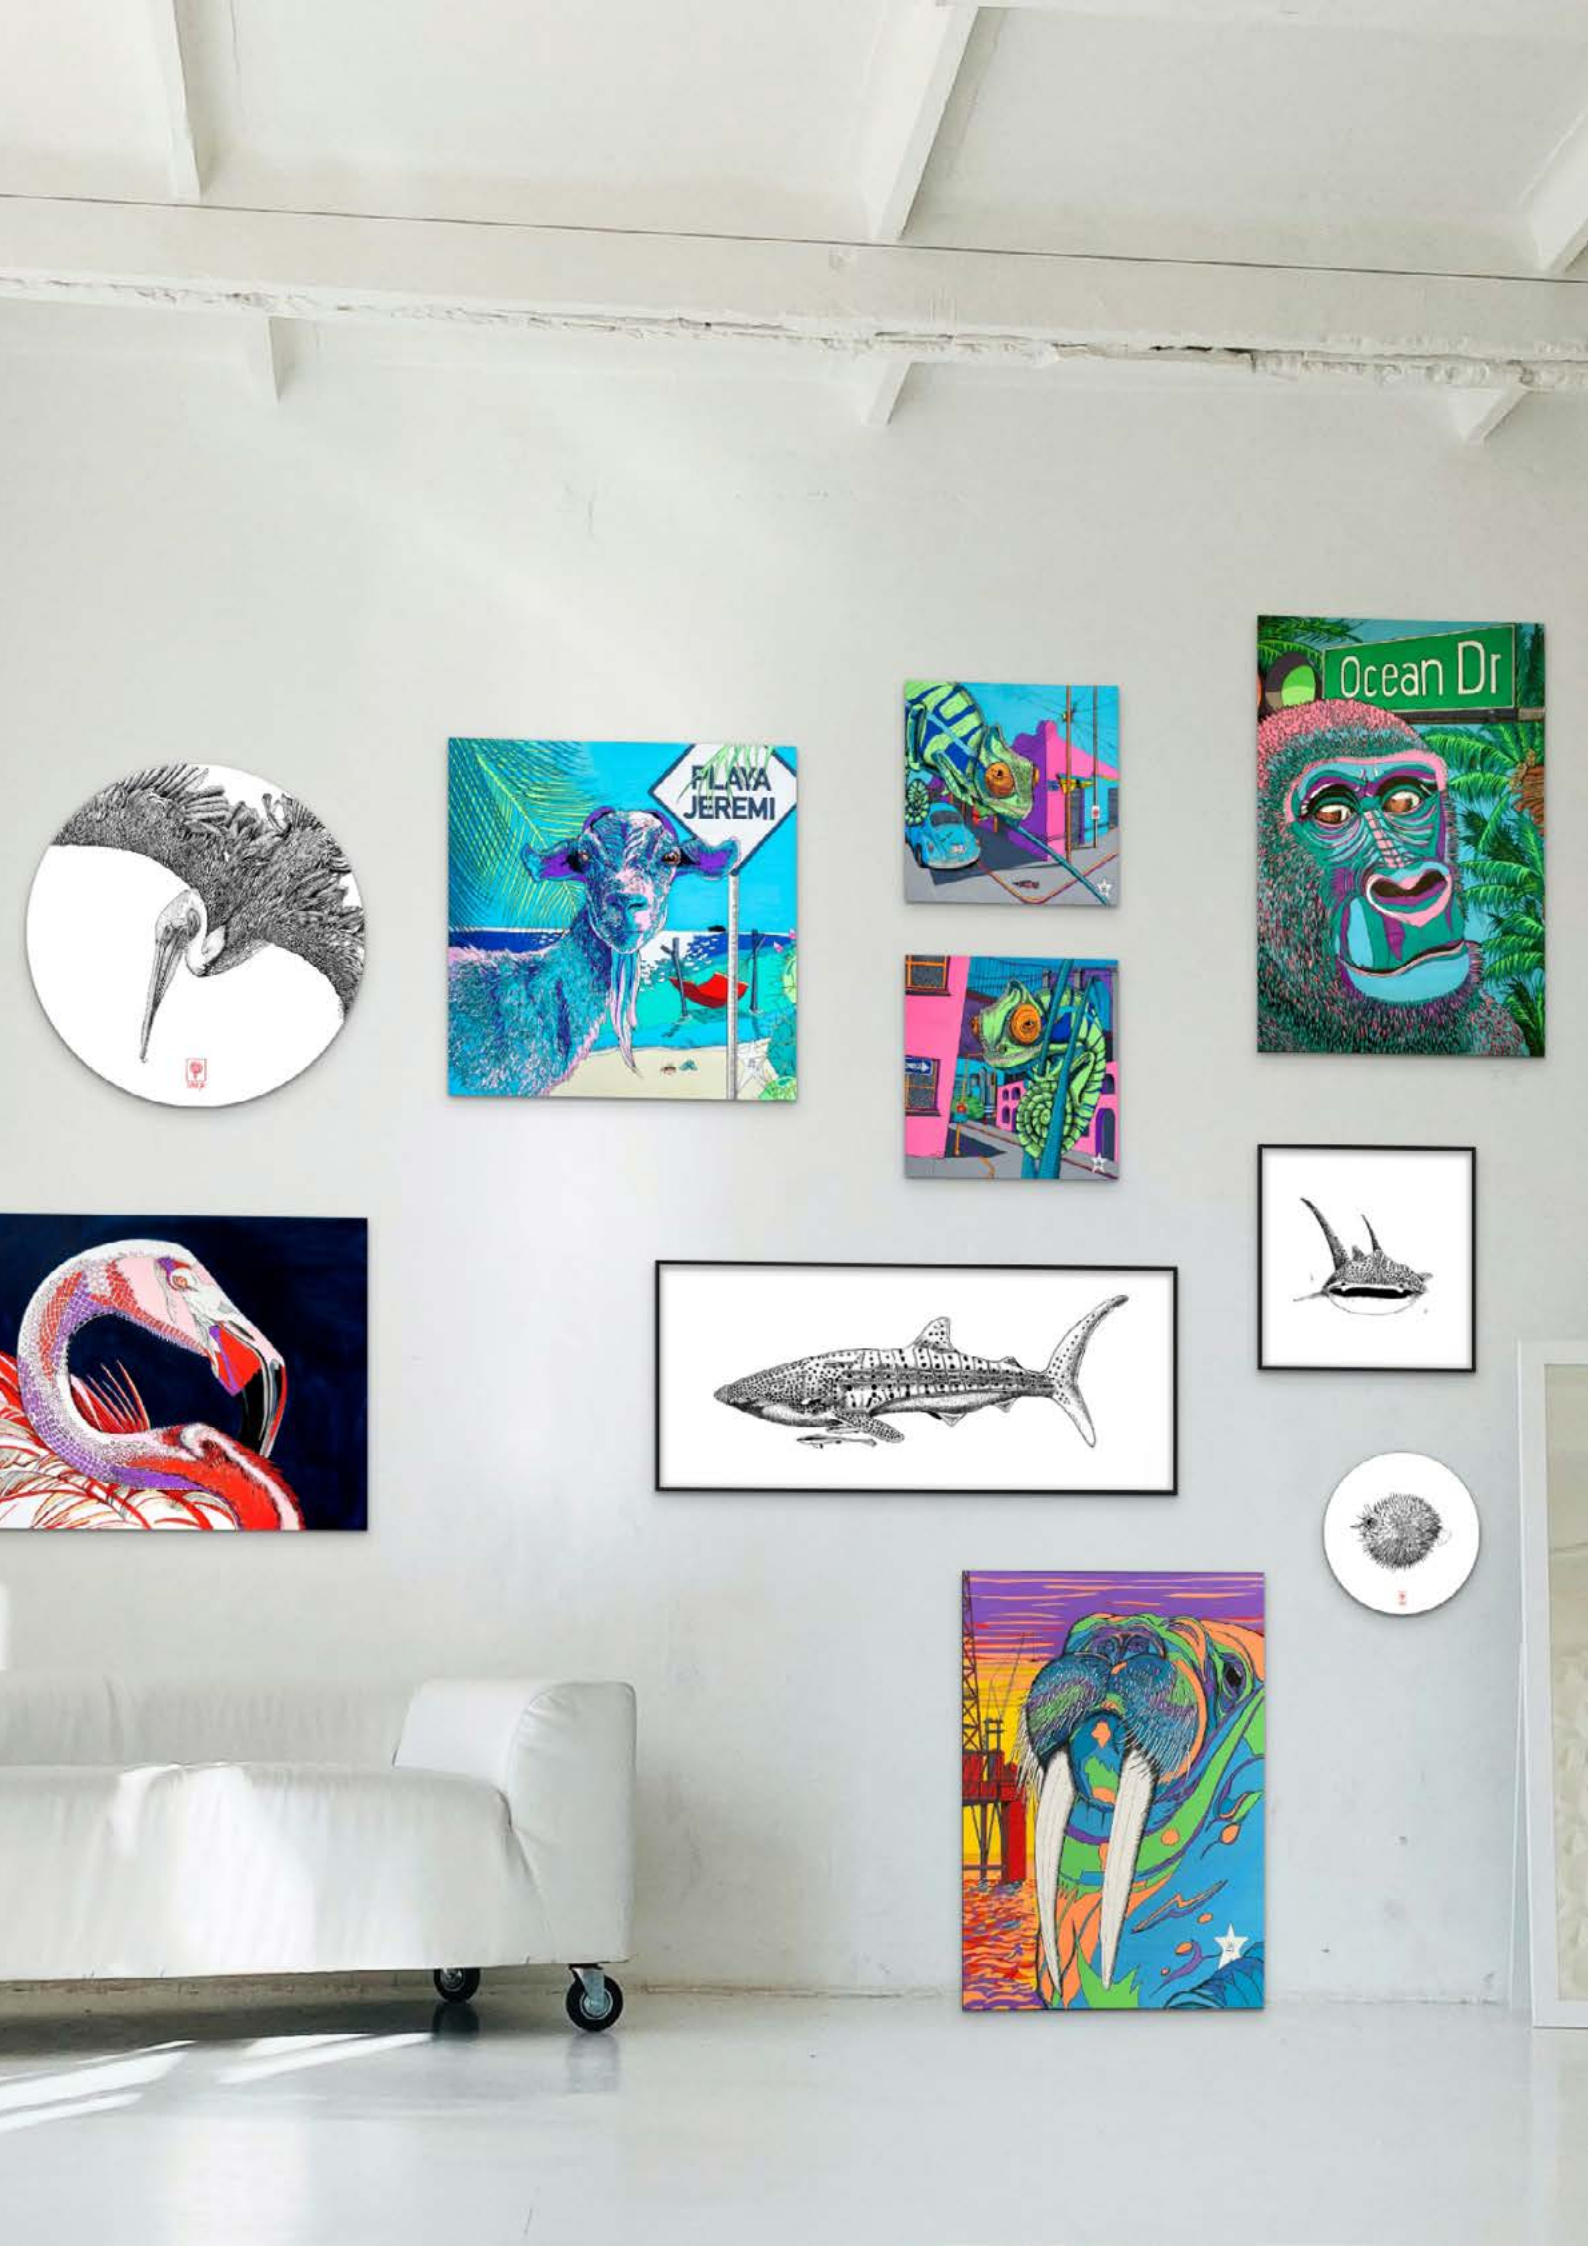

I began university as a biology student but quickly changed my focus to art history and finally graphic design as a way to continue with the art that I began as a young child.

I am German born but my heart resides in the tropics and you can readily see that in my choice of characters which are always animals, never people.

In February 2023, I had the incredible opportunity to transform a vacation home owned by a New York-based couple into a gallery featuring selected prints of my artwork. This gallery is located on the Caribbean island of Curacao and was inaugurated with a small vernissage.

My paintings and art prints now adorn private collections in Chicago, Florida, Curaçao, Taiwan, South Africa, and across Europe.

my art

My art is divided into two directions:

COLOUR

ColorLarge-format, very colorful, animal portraits in ,inappropriate' scenarios. Often viewed with a critical eye. The pictures are also always contemporary witnesses. Contrary to the usual idea of the overall picture composition, my colorful pictures are rather developments. It always begins with an animal portrait. The background, the scenery, sometimes develops during the painting process, sometimes months later. It is a process that is sometimes unpredictable, even for me. (For commissioned work, however, I can work strictly from sketches;)

Some of the paintings are available as originals, and selected motifs are available as fine art prints in museum quality. Hand-signed and in a strictly limited edition.

BLACK & WHITE

The second series deals with sea creatures, above and under water. The pictures consist exclusively of dots, which in the original are mostly painted on signs, chests or boxes. The motifs are also available as glycee or fine art prints in various sizes.

CERAMICS

Screens are made from the originals which serve as a template for the screen printing. A porcelain series is currently in production for this, consisting of cups, plates, bowls and tiles. If you are interested, please feel free to contact me by e-mail.
